STRATA CODE TECH

Better Systems. Smarter Operations.
Stronger Missions.

FEDERAL CAPABILITY STATEMENT

Leesburg, VA

We modernize federal technology, connect data, and improve mission operations.

CORE CAPABILITIES

01 Digital Modernization & Cloud
Modernize applications on AWS and hybrid cloud, and stand up IT service desks and contact centers on ServiceNow.

02 Data & Intelligent Automation
Connect siloed data, build Power BI and Tableau dashboards, and automate workflows and self-service to cut manual effort.

03 Cybersecurity & Risk
Prepare for CMMC and NIST SP 800-171 assessments, protect CUI, and manage endpoint and vulnerability risk.

04 Enterprise Transformation
Consolidate shared services, redesign processes with Lean Six Sigma and ITIL, and drive governance and change adoption.

PMP, ITIL, BRM, Lean Six Sigma

CONTRACTING
SAM.gov: Active
GSA MAS: In progress

WHY STRATA | WHAT SETS US APART

SECURE BY DESIGN
Compliance built in from day one, not added at audit time, by a founder with a zero-finding CMMC Level 2 assessment.

PROCESS BEFORE PLATFORM
We fix the workflow with Lean Six Sigma first and work in the tools you already own: fewer systems, not more.

MISSION-ALIGNED IT
BRM-certified leadership ties every IT investment to a mission outcome and keeps business and IT leaders aligned.

SELECTED FOUNDER-LED RESULTS

40%	70%	60%	110/110
Lower infrastructure costs	Less manual processing	Faster reporting cycles	CMMC L2, zero findings
